# What Calendars are available for Clubbies

## Local Activity Calendars

[www.surflifesaving.org.nz/activitycalendars](http://www.surflifesaving.org.nz/activitycalendars)

The local activity calendars are a printable Excel spreadsheet that you as a Clubbie or Club Admin can download and print easily. The calendar contains all the courses and events in your local area. It is in this format so that a club or club member can modify it to suit their needs. A club can take a copy of the online calendar and delete anything that is not relevant to them or their Clubbies, they can then add any club specific information as they require e.g. refresher days, social events etc.

While we will try our hardest to avoid any unnecessary changes, there will inevitably be some that occur due to circumstances beyond our control. To ensure that Clubbies are aware of any changes, the calendar will have a version number and date it was modified so the online version is always displaying the latest information. Any changes will also be communicated to clubs via the CDO in their update.

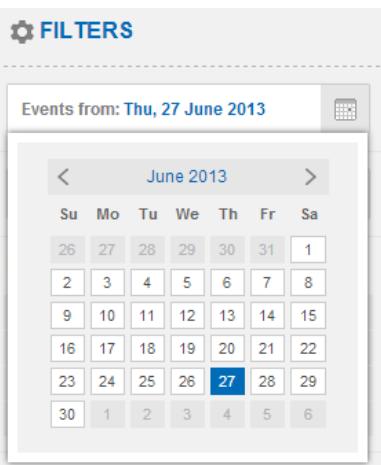

## SLSNZ Online Calendar

[www.surflifesaving.org.nz/calendar](http://www.surflifesaving.org.nz/calendar)

The SLSNZ Online Calendar has each individual sport/development events from all the local activity calendars. This is the area where you will find the latest information, programmes, entry information, course details and event information flyers.

The calendar can be easily filtered to find the information you are looking for.
