

HIGH VISIBILITY VESTS BRAND GUIDELINES

In conjunction with the compulsory use of vests in surf
sport from 1 October 2013

Updated Version – March 2016

HIGH VISIBILITY VEST GUIDELINES

Standards

As set out in the Surf Sport Competition Manual it is mandatory for all competitors to wear high visibility vests in competition (excluding pool-based events and IRB Events).

Note that with the introduction of mandatory Lifejackets to IRB racing and training then high visibility vests are not required while wearing a lifejacket (refer to policy [SPS010](#) for full details)

It is also highly recommended that all members wear high visibility vests in training or activities in open water environments deeper than knee level.

HIGH VISIBILITY VEST GUIDELINES

Colours

The colour recommended above all others is **Fluorescent Yellow**. (PMS #13-0630 TN 'Safety Yellow')

If for some reason this is not suitable, other recommended colours are:

- Fluorescent Pink (PMS #16-2130 TN 'Knockout Pink')
- Fluorescent Green (PMS#13-0340 TN 'Green Gecko')
- Fluorescent Red (PMS#485C)

It is requested that clubs do not use Fluorescent Orange (PMS# 15-1360-TN 'Shocking orange') as this will be used by Event Safety Teams for in-water searches.

HIGH VISIBILITY VEST GUIDELINES

Front of Vest Branding
