\*While every effort will be made to run as per the programme of events above. Events are subject to change and heats will be combined where space allows.

## Event Organisers

Kirsty Doyle (Event Organiser)	021 102 0058
Brent Harvey (Event Organiser)	027 557 1010
Sarah Traver (SLSNZ Staff)	

## Key Timings

9.00am	Warm up for competitors
9:15am	Team Managers Briefing
9.25am	Time Keepers Meeting
9:30am	Racing Begins (refer to program of events)
12.00pm	Approximate Finish

## Warm Up

The warm up time begins at 9am for all competitors. Please note that lanes 0 and 9 are the only lanes that diving will be permitted. These lanes will be a one way swim only after diving. Diving is not permitted in all other lanes during the warm up. Some lanes will provide the obstacles during this time.

## Racing with Bricks

It is the club / team managers responsibility to ensure those entered are able to cope with the deep water. If competitors (particularly younger competitors) are struggling to complete the brick carry please instruct them to drop the brick and swim to the end of the pool.

## Personal Belongings

There is open seating for all competitors' belongings on the stands. Please ensure that personal belongings are kept neat and tidy as well as looked after. The pool is not responsible for anyone's personal belongings. Event organisers and pool staff are not responsible for personal belongings.

## Food and Drink

A reminder to ensure all rubbish is put in the bins provided around the centre and that everyone is responsible for cleaning up after themselves, this is not the pools job.

## Sportsmanship

We understand that competition sports can be exciting and intense at times. This event is being put on for the purpose for participation in surf lifesaving pool competition to be conducted with a friendly and fun attitude. We ask and thank you for your cooperation in providing a fun competitive environment during this event.

## Marshalling

Competitors will be placed into lanes at the time of marshalling. If a competitor is not present at marshalling we will not wait for them. It is important that they swim in the lane allocated at the time of marshalling. Please note that heats are not seeded.

## Prizes

Spot prizes will be given to competitors throughout the duration of the event

## Protests

There are no protests. This is a fun event with the emphasis of having a go.

## 50 / 100m Swim With Obstacles

- With a dive entry on an acoustic signal, the competitor swims two lengths (4 Lengths for 100m) of the 25m pool passing under the immersed obstacles to touch the finish edge of the pool.
- Competitors must surface after the dive entry before the first obstacle; and after passing under each obstacle.
- Competitors may push off the pool bottom when surfacing from under each of the obstacles. "Surfacing" means the competitor's head breaks the plane of the surface of the water
- Swimming into or otherwise bumping an obstacle is not a behaviour that results in disqualification.

## 4 x 25m Obstacle Relay

- With a dive entry on an acoustic signal, the first competitor swims 50m freestyle passing under two obstacles.
- After the first competitor touches the start/finish edge the second, third, and fourth competitors repeat the procedure in turn.
- Competitors must surface after the dive entry before the first obstacle and after passing under each obstacle. "Surfacing" means the competitor's head breaks the plane of the surface of the water.
- Competitors may push off the pool bottom when surfacing from under each of the obstacles.
- Swimming into or otherwise bumping an obstacle is not a behaviour that results in disqualification.
- The first, second and third competitors must leave the water upon finishing their legs of the relay without obstructing any other competitors. The first, second and third competitors may not re-enter the water.

## 50m Brick Carry

- With a dive start on an acoustic signal, the competitor swims 30m freestyle and then dives to recover a submerged rubber brick to the surface within 5m of the pick-up line.
- The competitor then carries the rubber brick to touch the finish edge of the pool.
- Competitors may push off the bottom when surfacing with the rubber brick

## 50M with Fins

- With a dive entry on an acoustic signal, the competitor swims 50m freestyle with fins
- Following the dive entry the competitor must surface prior to the 15m surface line. "Surfacing" means the competitor's head breaks the plane of the surface of the water
- Some part of the competitor must break the surface of the water throughout the race after surfacing.
- The event is completed when the competitor touches the finish edge of the pool.

## Patient Tow with Fins

- With a dive entry on an acoustic signal, the rescuer swims freestyle with fins and rescue tube, where their patient is waiting with at least one hand on the end of the pool above the surface of the water. **Note:** the patient only has to have one hand on the end of the pool when the rescuer touches the turning edge of the pool and not at the start of the race.
- As soon as the rescuer has touched the turning edge of the pool, the patient can let go of the wall and the 'clip in' to the rescue tube can begin.
- The rescuer must clip the patient into the rescue tube with the tube being secured around the body, under both arms and clipped to the O-ring.
- This clip in must be made within the 5 m pick up zone (judged by the top of the patient's head).
- The rescuer and patient may choose to push off the wall if they wish.
- The patient must stay on their back but may assist the tow by kicking and sculling under water.
- The patient may not recover their stroke above the waterline.
- The patient must not, at anytime during the race, hold on to the rescue tube lanyard.
- The finish is determined on the rescuer touching the wall with one hand.
- The patient may grip the rescue tube (foam part only) above the waterline, however this must be with BOTH hands and the movement completed before the 5m line.

## 4 x 25m Medley Relay

### The First Competitor

- With a dive entry on an acoustic signal, the first competitor swims 25m freestyle *without* fins.

### The Second Competitor

- With a dive start after the first competitor touches the wall, the second competitor swims 25m freestyle *with* fins.

### The Third Competitor

- With a dive start after the second competitor touches the wall, the third competitor swims 25m freestyle towing a rescue tube. The third competitor touches the turning edge.

### The Fourth Competitor

- The fourth competitor is in the water wearing fins with at least one hand on the turning edge.
- The fourth competitor dons the harness and the third competitor, playing the role of the “victim”, holds the rescue tube with both hands while being towed 25m by the fourth competitor to the finish.
- Both the fourth and the third competitor (victim) must leave from the turning edge. The victim must be in contact with the rescue tube before passing the 5m line.
- The event is complete when the fourth competitor touches the finish edge of the pool with the victim in contact with the rescue tube.
- The victim may kick while being towed, but no other assistance is permitted.
- The victim must grip the main body of the rescue tube – not the rope or clip.
- The victim must hold onto the rescue tube with both hands while being towed, but may reposition his or her hands on the tube during the tow without disqualification.
- While the fourth competitor must have at least one hand on the turning edge when the third competitor touches the edge, the fourth competitor may push off the edge with hand, arm, or feet.
