SLSNZ First Aid Levels

Surf First Aid

Note: This is not a Standard Work Place First Aid!

Unit Standards: 6401, 6402, 6400

Essential Surf Content

Prerequisites: Current SLSNZ member, 14 years of age

Duration: 2 days

Description: This is a 2 day resuscitation course covering the following topics (**Bold** topics are typically in addition to 6400, 6401, 6402 content, though mandatory for an approved Surf First Aid course*):

Assessment of emergency situations, basic life support (must include use of AED), soft tissue injuries, bleeding, shock, fractures and head injuries. Hypothermia, asthma, **Oxygen delivery systems**, burns, asthma and **basic drowning physiology**.

Topic information

Primary Assessment:

- DRSABCD
- Response – AVPU
- Send for help – Position, Problem, People
- Airway
- Skin colour and temperature

CPR:

- Adult
- Child
- Infant
- Airway obstruction for all ages

Common first aid conditions:

- Injuries – fractures, dislocations, wounds, burns, soft tissue injuries – splinting, spinal injuries
- Medical conditions – seizures, epilepsy, diabetic emergencies, breathing difficulties; anaphylaxis, chest pains, stroke;
- Hypothermia, hyperthermia.
- Marine stings, eye injuries, poisons

Bleeding, signs and symptoms and treatment of:

- External bleeding
- Internal bleeding
- Amputation
- Impaled object
- Chest wounds

Shock:

- Signs and symptoms
- Circulation check – skin colour, temp, pulse, capillary refill.
- Treatment
- Secondary survey

Oxygen:

- Cylinder ID
- Safety
- Attaching the regulator/cracking cylinder
- Delivery devices and flow rates
- Indications for oxygen therapy
- Suction

AED – Introduction and demonstrate knowledge of and use of an AED

Basic drowning physiology

- Basic understanding of the drowning process
- The physiological drowning process
- The effect of drowning on the lungs

Assessment

Candidates are assessed in accordance with NZQA protocol for the following unit standards:

- 6402
- 6401
- 6400
- Scenario assessment must include at least one in a simulated (or actual) beach environment

Certification

- Certificates awarded at the successful completion of this course must contain the following detail:
 - The words 'Surf First Aid' in the course description
 - Unit standards completed (6400, 6401, 6402)
 - Date of course completion
 - Date of certification expiry
- Unit Standards achieved during this course should be loaded to the learners NZQA Record of Learning

Advanced Surf First Aid

Unit Standard: 29321

Prerequisites: Current SLSNZ member, holds current 'Surf First Aid'

Duration: Minimum 3 days

Note: During this course, 'Surf First Aid' is refreshed

Description: This 3 day⁺ course refines all of the skills already learnt in Surf First Aid plus extends the lifeguard in their knowledge of drowning physiology, circum-rescue collapse, and assessment of non-fatal drowning, scene management, advanced monitoring (Pulse oximetry, blood glucose, and chest auscultation) and triage.

Topic information

Learners will receive knowledge, and engage in skill stations & simulated emergency events as a 'pre-hospital emergency care provider'. Learners must demonstrate the management of the patients relative to the situation to, minimise, stabilize or improve the patient's outcome to be successful in being awarded with this unit. The facilitator will ensure the 'events' are relevant to the Learner's own setting.

Learners will be expected to acquire knowledge, practical skills and experience to:

- Assess and manage a range of pre-hospital emergency care situations with the use of technology by engaging in simulated activities from a range of different emergency care situations
- Demonstrate and apply knowledge of devices and/or techniques to manage patients in emergency situations;
- Monitor patients and provide information in a range of emergency situations relevant to surf lifesaving situations (including Pulse oximetry, blood glucose and chest auscultation)
- Engage and interact in peer assessment opportunities in order to facilitate optimum understanding of key concepts and skills
- Become familiar with correct pre-hospital emergency care methods through the participation of skill stations centred around the understanding of the knowledge and skill expectations of the primary resource, relevant equipment user's manual recommendations & current pre-hospital emergency care practices

Competence must be demonstrated in a minimum of two different emergency situations which may be real or simulated. At least one emergency situation assessment must include a simulated (or actual) beach environment

Course topics covered must include but are not limited to;

- DRSABCD
- Anatomy and physiology considerations
- Scene assessment & the physiology of drowning
- Patient triage
- CPR single to multiple surf considerations
- Shock management
- Oxygen therapy
- Advanced airway management
- Suction

- Defibrillation
- 2^o Survey conscious and unconscious patients
- Vital signs & readings (blood pressure etc.)
- Bleeding control & management
- Major wounds management
- Soft tissue management
- Dislocations & fractures management
- Head injury management
- Spinal management
- Extended care considerations
- Positioning
- Movement from danger
- Environmental conditions (cold water, hot sun/sand, wind, emergency services access)
- Hypothermia/hyperthermia
- Medical conditions asthma
- Anaphylaxis
- Diabetes
- Epilepsy
- Marine Stings
- Burns
- Critical care and after care management

Assessment

Candidates are assessed in accordance with NZQA standards for the following Unit Standards:

- 29321

Certification

- Certificates awarded at the successful completion of this course must contain the following detail:
 - The words 'Advanced Surf First Aid' in the course description
 - Unit standards completed (29321)
 - Date of course completion
 - Date of certification expiry

Unit Standards achieved during this course should be loaded to the learners NZQA Record of Learning

Pain Relief Module

This is an optional module which can be added into Advanced Surf First Aid (*for learners who meet the prerequisites* only*). Clubs that wish to have this module added to their Advanced Surf First Aid course must seek approval from SLSNZ.

*Prerequisites: Current SLSNZ member, 18 years of age, SLS Advanced Surf First Aid

Duration: 3 hours

Note: This can be refreshed biannually along with Advanced Surf First Aid

Description: The training in the use of Methoxyflurane (MOF) will include the effective use of Paracetamol as a total pain management regime. It will involve some pain physiology, use of pain relief with other resources such as splints and Oxygen.

‘Soft skills’ such as keeping a patient calm and reassured, bedside manner and calm/confident interaction should be covered as valid strategies to achieve favourable patient outcomes. The course will conclude with formalised assessment.

Topic information

- Identify when the use of MOF is justified
- Contra indications in the use of MOF
- How to administer MOF
- Patient monitoring / side effects
- Disposal of used MOF
- Recording the use of MOF

Recognition of Prior Learning

Surf Life Saving members are able to get recognition of prior learning for some external first aid training.

Please forward your current external first aid training certificates to member.education@surflifesaving.org.nz to see if you qualify for recognition of prior learning. If we are able to cross credit your training over to the SLS first aid levels, this will be confirmed via email and updated on the PAM database.

Who Can Deliver SLS First Aid – Providers

The following Providers have been approved to deliver the courses outlined above following the content and format prescribed by SLSNZ. Quotes from providers are located in Appendix 1 of this document. Please only contact providers if you need to make a booking – quotes provided in the appendix are designed to be used for funding applications

Delivery of Courses

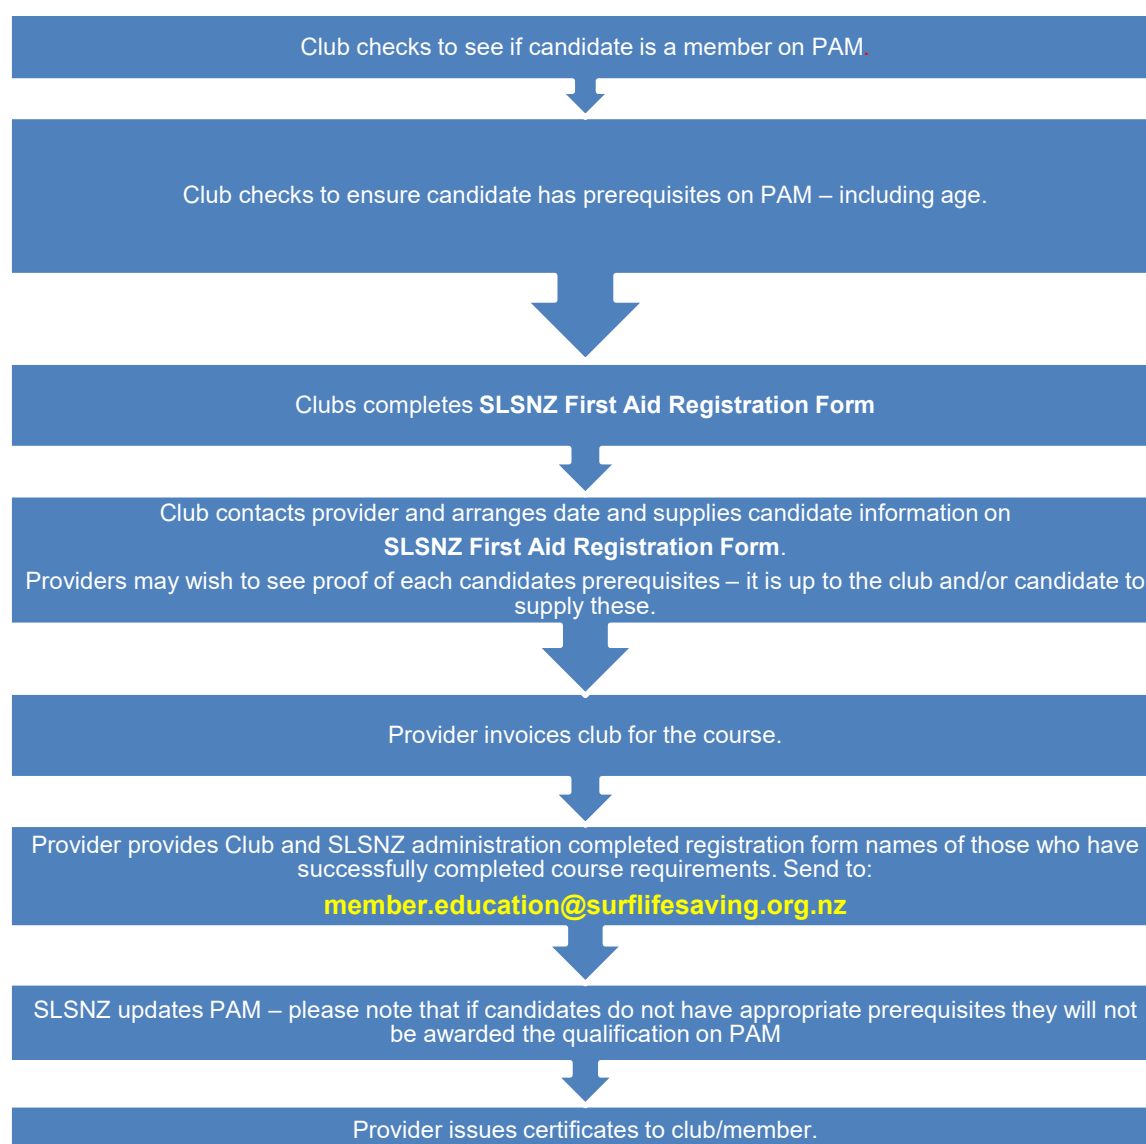

There are two main ways clubs can have First Aid courses delivered for them, below we outline different options available to members. Both delivery methods can apply to SLSNZ approved providers (listed in this document) and non-approved providers. Please note there is an alternative pathway when utilizing a non-approved provider (see page 11).

Club Arranged Courses

Details

Courses are arranged by the Club directly with the provider to organise participants, venue and date. Clubs may arrange with other Clubs to fill a course they have arranged. To assist with funding quotes from providers and a letter of support from SLSNZ is located on the SLSNZ website.

Process

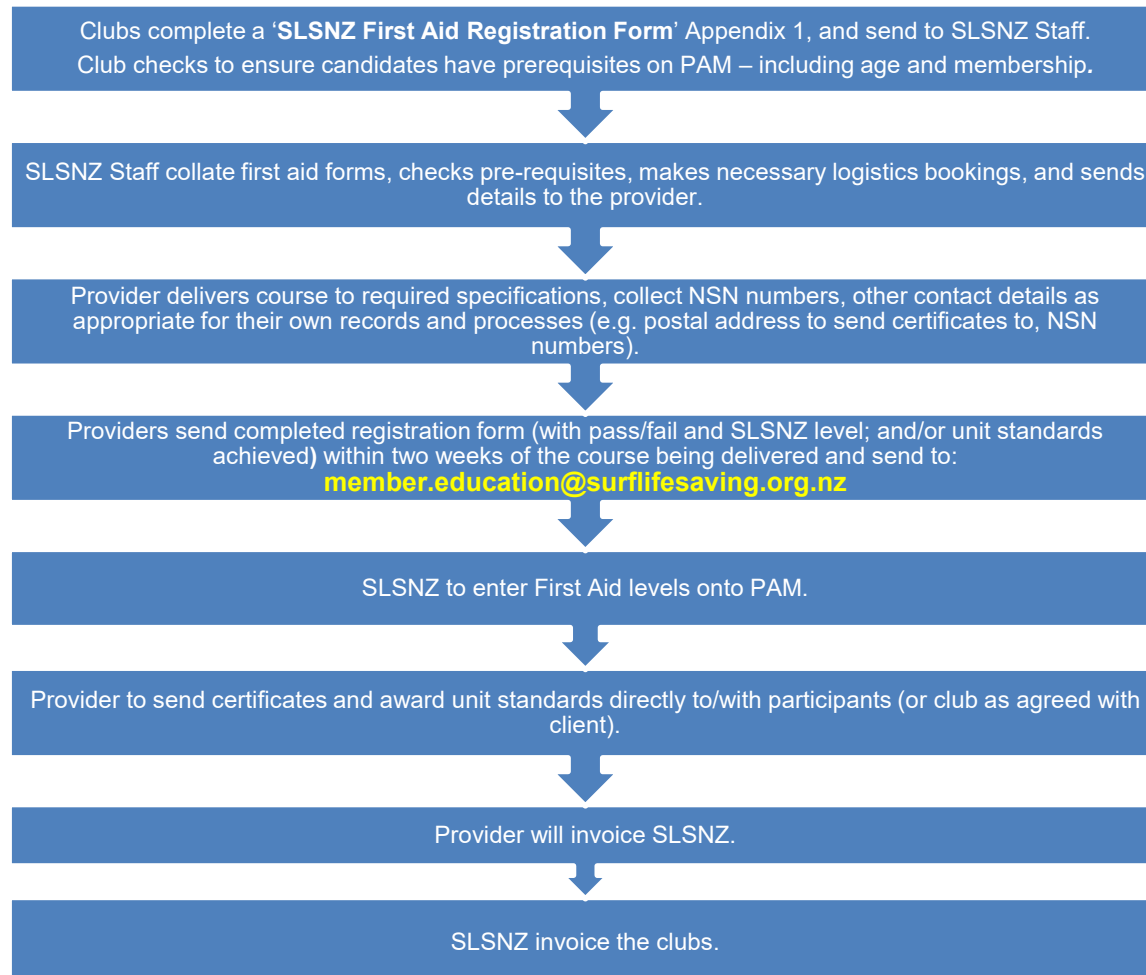

Surf Life Saving New Zealand Arranged Courses

Details

For courses arranged by SLSNZ, clubs will deal directly with SLSNZ staff for booking courses. An effort will be made to ensure each club is given equal opportunity for places on courses.

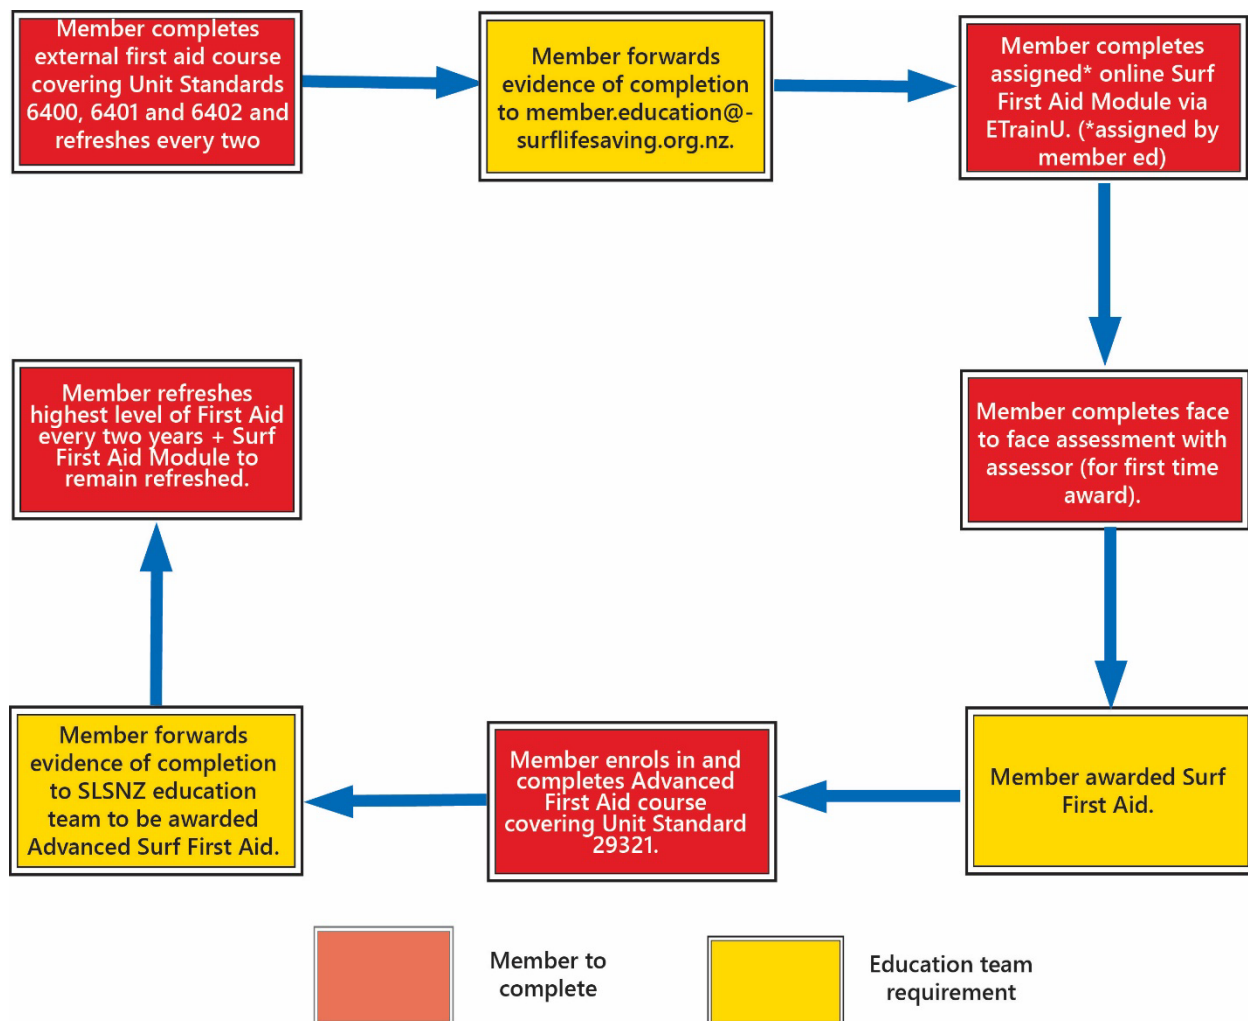

Process

Non-approved provider courses – club or individual arranged

Full process including refresher and Advanced First Aid components.

Medic First Aid

137 White Road, RD1

Reporoa 3081

0800 112131

www.medicfirstaid.co.nz

Background

Medic First Aid has engaged the services of and employs the instructors previously utilised by Lifesaving First Aid to ensure the continuation of the successful programmes that have been delivered within SLSNZ.

The training incorporates proven adult centred learning techniques based around hearing, seeing and doing to ensure students gain and retain the required knowledge they require to operate as Surf Lifeguards.

Our instructors have a background in Surf Lifesaving, Ambulance and or Nursing enabling them to bring real life experienced to each sessions and making training relevant to SLSNZ requirements.

We make learning to save and protect lives easy.

Delivery Area: Nationwide based. We are able to offer courses throughout New Zealand Nationally.

New Zealand Red Cross Incorporated

69 Molesworth Street,
Thorndon, Wellington, 6011

Overview:

We believe every human life is precious and each of us has the power to save a life. Our world-leading training equips people with the skills and confidence needed to prevent suffering, save lives, and create more resilient communities. Red Cross are proud to be a world leading first aid training provider. We train over 23 million people around the world each year, 71,000 in New Zealand in the last financial year.

Since 2012 Red Cross have held the Category One provider status awarded by NZQA. We have a double highly confident rating for both Education Performance and Self-Assessment. This is the highest rating attainable and is a credit to our experienced First Aid Instructors & Management staff.

Currently, we have 67 registered locations across NZ and an additional 60 additional hired training venues.

Delivery Area: Nationwide

Pacific Medicare (A division of First Aid NZ)

22 Ocean View Road
Northcote, Auckland
09 480 0182

www.firstaidnz.co.nz and www.pacificmedicare.com
info@pacificmedicare.com

Background

Pacific Medicare has been providing First Aid and Pre-Hospital Emergency Care (PHEC) training courses and Emergency Care equipment and trauma kits to Surf Lifesaving clubs, schools and organisations in New Zealand since 2007. As of 1 April 2020 Pacific Medicare merged with First Aid NZ a Category 1 NZQA accredited PTE that shares the belief that any form of learning should be fun, practical and build confidence. First Aid NZ trainers are lifeguards who are also educators and focus on highly practical, scenario based relevant course content.

Delivery Area: Based in Auckland, can deliver anywhere in North Island

Maximum of 20 people in any one course, however additional participant numbers above 20 are to be negotiated on an individual needs basis.

- All cost are + GST.
- Travel and mobilization costs including mileage are in addition to courses costs – all steps will be taken to minimize any mobilization costs with full transparency

The costs include:

- All manuals and training equipment including airway manikins, oxygen, stretchers & defibrillators, data show equipment and trained and experienced Instructors.
- Costs are based on training at regional SLSNZ clubrooms – no venue hire costs.

Costs include registration of units. Does not include NZQA hook-up fees

Pro+Med (NZ) Ltd

PO Box 46181, Temuka 7948

info@promed.ac.nz

Overview:

We have instructors New Zealand wide and these instructors can offer training that is geared towards Surf Life Saving so students are confident in treating injuries or medical events. Having been suppliers of medics at surf lifesaving events over many years we are conversant with what injuries and medical events are presented. Our training is focused on small class sizes, no more than 14 students, so the instructor can ensure each student has good knowledge of first aid procedures. If there are more than 14 students we will provide an extra instructor. We are trainers for the First Responder programme so have resources developed to a high standard to teach 29321. The course 29321 will be over 5 days which could be over two weekends with extended hours each day.

Delivery Area: Hamilton based, we are able to offer courses around the North Island, from Wellington to Hamilton

Background

Area: South Island (Except Tasman Area), Auckland and soon to be Wellington.

We have written and developed Surf Life Saving First Aid Scenarios specially based around real events and NZQA unit standard requirements for the Advanced First Aid Course.

Currently we can deliver first aid courses for the entire South Island (Except Tasman Area), Auckland and soon to be Wellington. Qualifications gained are nationally recognised and training can be provided at your Surf Club or our venues. Best of all, affordable prices, modern training equipment, relevant and professional instruction. Once you train with us you never use another provider again. Head to our testimonials section to see our latest independent reviews.

OUR MISSION STATEMENT To provide quality affordable and enjoyable First Aid courses that give people skills, knowledge and confidence with providing First Aid in a supportive training environment, ensuring the best possible outcome for the participant.

CORE VALUES Exceeding client expectations, consistent quality, learner focused, excellence at every level, honesty, integrity and relevancy.

We can cater for individuals and larger groups. Head to www.wpfirstaid.co.nz for bookings

Workplace First Aid Training Ltd is a New Zealand Qualifications Authority Registered Private Training Establishments (PTE) under the provisions of the Education Act 1989 and its subsequent amendments. Head office at 16 McBride Street, South Dunedin, 9012
