

# Health & Safety Concerns

If you have a Health and/or Safety concern anywhere within Surf Life Saving, we would like to help you raise that concern.

*If you see, hear, or experience something that isn't right please let us know so we can make things right.*

## CLUB

If your concern involves your Surf Club, then we would guide you to raise it directly with the Club Health & Safety Lead or committee.

## SLSNZ

If your concern involves a local, regional or Surf Life Saving activity, course, or Surf Sports Event please contact the SLSNZ Health & Safety Advisor.

## ENVIRONMENTAL

If your concern involves the physical environment around your Surf Club, the initial concern should be shared with your local council.

If an incident, accident, injury, or near miss happens please enter this into the SLSNZ Member Database CRM

Alternatively scan this QR code and tell us what your concern is

It is the SLSNZ Health & Safety Advisor's role to support clubs, members, and staff, so feel free to contact Scott on 027 4404 700 or [scott.weatherall@surflifesaving.org.nz](mailto:scott.weatherall@surflifesaving.org.nz)
